

Third United Nations Conference on the Law of the Sea

1973-1982

Concluded at Montego Bay, Jamaica on 10 December 1982

Document:-
A/CONF.62/24

Provisional agenda of the second session of the Conference

Extract from the *Official Records of the Third United Nations Conference on the Law of the Sea, Volume III (Documents of the Conference, First and Second Sessions)*

DOCUMENT A/CONF.62/24

Provisional agenda of the second session of the Conference

[Original: English]
[9 May 1974]

1. Opening of the session by the President of the Conference
2. Minute of silence for prayer or meditation
3. Address by the President of Venezuela
4. Adoption of the rules of procedure
5. Organization of work
6. Consideration of the subject-matter referred to in paragraph 3 of General Assembly resolution 3067 (XXVIII) of 16 November 1973
7. Consideration of a decision, if necessary, to convene a further session or sessions of the Conference, to be submitted to the General Assembly for approval pursuant to paragraph 4 of General Assembly resolution 3067 (XXVIII) of 16 November 1973
8. Adoption of a convention dealing with all matters relating to the law of the sea, pursuant to paragraph 3 of General Assembly resolution 3067 (XXVIII) of 16 November 1973, and of the final act of the Conference
9. Signature of the convention and the final act

DOCUMENT A/CONF.62/25

Economic implications of sea-bed mineral development in the international area: report of the Secretary-General

[Original: English]
[22 May 1974]

CONTENTS

	Page		Page
PREFACE	5	1. <i>Identification of major policy objectives</i>	22
Summary of report on economic impact of sea-bed mining	5	(a) Encouraging the development of nodule resources	22
I. REVIEW OF SEA-BED MINING ACTIVITIES	8	(b) Minimizing the impact of nodule mining on mineral exports of developing countries	22
1. <i>The search for nodule deposits</i>	8	(c) Ensuring the participation of developing countries in the nodule industry	22
(a) Procedures used	8	(d) Maximizing revenues for the International Authority	22
(b) Recent activities	8	(e) Preservation of the marine environment	23
2. <i>Nodule mining technology</i>	8	(f) Conservation of nodule resources	23
(a) Nodule collection	10	2. <i>Harmonizing conflicts of interest</i>	23
(b) Materials elevation	10	3. <i>Balancing nodule development against its impact on mineral exports of developing countries</i>	23
(c) Surface vessel	13	(a) Basic approaches	23
3. <i>Metallurgical processing</i>	13	(b) Long-term planning: the preventive approach	23
4. <i>Government activities</i>	14	(c) An alternative approach—indirect controls	26
5. <i>Proposals for Government legislation</i>	15	(d) The compensatory approach	26
II. THE PROBABLE IMPACT OF NODULE MINING	15	(e) Short-term price fluctuation	27
1. <i>Forecasting future production of metals from nodules: the problems involved</i>	15	4. <i>Participation of developing countries</i>	27
2. <i>The probable scenario for the next decade</i>	15	(a) Indirect methods: transfer of knowledge of resources and techniques	27
(a) The methodology used	15	(b) Direct methods—joint ventures	27
(i) Metal production per ton of nodules	15	5. <i>Revenue for the international machinery</i>	28
(ii) Size of operations	16	(a) Value of nodules versus value of processed minerals/metals	28
(iii) Entry of new nodule operations	16	(b) The profit potential of the nodule industry—preliminary estimates of revenues and costs	29
(b) <i>Forecasting probable metal recovery from nodules by 1985</i>	17	(c) The share of revenues of the International Authority	32
3. <i>The likely impact of nodule mining</i>	17	(i) The basic component of the Authority's share of revenues	32
(a) Nickel	18	(ii) Auction of mine sites	34
(b) Copper	18	6. <i>Preservation of the marine environment</i>	35
(c) Manganese	19	7. <i>Conservation of nodule resources</i>	36
(d) Cobalt	20		
(e) Summary	20		
4. <i>The long-term prospect of nodule mining</i>	21		
III. PROMOTING THE RATIONAL DEVELOPMENT OF NODULE RESOURCES	22
