Overview

- 8.1 The overall purpose of the programme is to promote a better understanding by Member States of and respect for the principles and norms of international law in order to support the accomplishment of the objectives of the United Nations.
- 8.2 The mandate for the programme derives from the principal decision-making organs of the Organization in accordance with the Charter of the United Nations and the Statute of the International Court of Justice.
- 8.3 Within the Secretariat, substantive responsibility for the programme is vested in the Office of Legal Affairs. It provides a unified central legal service for the Secretariat and the principal and other organs of the United Nations, supports the development of international justice, contributes to the progressive development and codification of international public and trade law, strengthening and developing the international legal order for the seas and oceans, registers and publishes treaties and performs the depositary functions of the Secretary-General.
- 8.4 The Office will provide services and legal advice, upon request, to the decision-making organs of the United Nations and its Member States. It will aim to strengthen respect within the United Nations system for the rule of law, in particular observance of the Charter and the resolutions, decisions, regulations, rules and treaties emanating from the Organization. The achievement of gender equality will also be addressed in the advice provided by the Office and in its activities, as appropriate.
- 8.5 The Office carries out its activities in cooperation with other departments and offices of the Secretariat, entities of the United Nations system and entities external to the United Nations, including treaty organizations, intergovernmental, interregional, regional and national organizations, non-governmental organizations and academic communities. Such collaboration and cooperation include the following:
- (a) Coordination of interdepartmental activities, liaison with United Nations organs dealing with legal matters, offices established away from Headquarters and legal advisers or liaison officers assigned to field missions or other Secretariat units;
 - (b) Representation at and convening of meetings with legal advisers of the United Nations system and cooperation/coordination of institutional arrangements for the specialized agencies and related organizations on matters of common concern;
 - (c) Representation of the Secretary-General and the Legal Counsel at meetings and conferences convened by the United Nations or sponsored by Governments, intergovernmental organizations and other international institutions.
- 8.6 The issue of publications as part of the programme of work has been reviewed in the context of each subprogramme. It is anticipated that recurrent and non-recurrent publications will be issued as summarized below and as described in the output information for each subprogramme.

| Non-recurrent | 12 | 21 | 10 |
| Total | 223 | 242 | 183 |

- 8.7 It is proposed to establish an Office of the Under-Secretary-General to assist the Under-Secretary-General for Legal Affairs, the Legal Counsel, in the executive direction and management of the Office of Legal Affairs. The proposed Office would undertake the coordination role for the Office of Legal Affairs and support the activities of the Legal Counsel and the coordination of activities with United Nations legal advisers. The Office of the Under-Secretary-General would be established by redeploying the post of Under-Secretary-General and the Personal Assistant (General Service (Other level)) from the Office of the Legal Counsel, a P-3 post from the Executive Office and a General Service (Other level) post from the Treaty Section. It is also proposed to establish a new post (P-5) as Special Assistant to the Legal Counsel.
- 8.8 Subprogramme 1 is implemented by the Office of the Legal Counsel. The Office of the Legal Counsel will continue to assist the principal and subsidiary organs of the United Nations through qualitative and timely legal advice, the preparation of reports and analysis and participation in meetings. Supporting the development of international criminal justice has been the objective in which the Office of the Legal Counsel has seen the most significant growth in its efforts. The Office helps existing and future international and internationally assisted tribunals by advising on all legal matters related to those tribunals. With the expansion of peacekeeping and peacebuilding missions, the workload in that field has expanded correspondingly in a major way. With the establishment of the Office of the Under-Secretary-General, some post and non-post resources would be redeployed to meet the operational requirements of the Office of the Under-Secretary-General.
- 8.9 Subprogramme 2 is managed by the General Legal Division, which provides general legal services and support to United Nations organs and programmes. The Division seeks to provide timely and effective legal advice, assistance and services to units of the Organization (e.g., Headquarters, regional commissions and other United Nations offices away from Headquarters, and peacekeeping and other missions) and of the separately funded subsidiary organs of the United Nations in order to protect the legal interests of the Organization and to prevent or minimize legal liabilities arising from the activities and operation of the Organization. Demands for legal services made upon the Division continue to increase, in particular with regard to support for peacekeeping and similar missions of the Organization, support for internal investigations and for the development and implementation of reform policies. Finally, in response to recommendations made by both internal and external auditors, the Division will continue to work to improve the Organization's procurement practices through the development and improvement of standard forms of contract and related instruments as well as reform of the policies and procedures for such procurement activities. During the biennium 2008-2009, the Division will continue to meet the demands throughout the Organization for legal advice, services and support with essentially the same resources as those made available for the biennium 2006-2007.
- 8.10 With respect to subprogramme 3, the Codification Division will be strengthened by the redeployment of an Editorial and Desktop Publishing Assistant (General Service (Principal level)) from the Treaty Section to assist in the electronic dissemination of *Reports of International Arbitral Awards*. There would also be a small reduction of \$18,000 owing to the completion of digitizing activities in the Codification Division and progress in the conversion of publications into electronic versions. The Division continues to provide assistance to a number of bodies involved in the progressive development of international law and its codification, to manage the United Nations Programme of Assistance in the Teaching, Study, Dissemination and Wider Appreciation of International Law and to prepare several major recurrent and other legal publications. The Division will also aim at phased implementation of the computerization of these publications as part of the information management project.

- 8.11 For subprogramme 4, implemented by the Division for Ocean Affairs and the Law of the Sea, an increase of \$7,000 is proposed, mainly for the replacement of office automation equipment. During the biennium 2008-2009, increased activities in terms of assistance requested by coastal States are expected in connection with the approaching deadline for the presentation of their submissions to the Commission on the Limits of the Continental Shelf, as well as with respect to identifying issues relating to the conservation and sustainable use of marine biological diversity beyond areas of national jurisdiction. Furthermore, the Division will be responding to requirements for additional servicing and follow-up of the consultative process on oceans and the law of the sea, particularly in view of the enhanced cooperation with funds, programmes and agencies of the United Nations system, and with respect to the expanded agenda of the Meeting of States Parties to the United Nations Convention on the Law of the Sea. In response to the request from the General Assembly, the Division will strengthen and broaden the existing capacity-building activities. It will also continue to provide advisory services on the implications of the provisions of the Convention for existing and proposed legal instruments and contribute to and participate in the activities and meetings of intergovernmental bodies and non-governmental organizations, in particular in relation to chapter 17 of Agenda 21, as well as in the anticipated mechanisms for inter-agency cooperation.
- 8.12 With respect to subprogramme 5, the Division will continue to provide substantive services to the United Nations Commission on International Trade Law (UNCITRAL) and its working groups with a view to expanding the body of uniform legal standards for worldwide use and to preparing the future legislative work programme of UNCITRAL with essentially the same resources as those made available for the biennium 2006-2007. Strengthened coordination between international organizations active in the field of international trade law will also be sought, consistent with the mandate of UNCITRAL as the core legal body in the United Nations system in the field of international trade law.
- 8.13 With regard to subprogramme 6, the Treaty Section is undergoing further refinements to its database, data-processing systems and the United Nations Treaty Collection on the Internet. These refinements will further automate functions in the production of various outputs, e.g., depositary notifications, dissemination of depositary notifications electronically, establishment of a data warehouse for analysis and reporting purposes, improvements to the updating of the publication *Multilateral Treaties Deposited with the Secretary-General*, and web publishing. In this regard, the Treaty Section will be able to publish treaties and related actions on the Internet almost immediately following the registration of such treaties and actions with the Secretariat. The Section will thus be able to meet its publication mandate in a timely fashion without having to postpone publication owing to missing translations. Furthermore, the Section will continue to focus on reducing the production turnaround time in the publication of the hard-copy version of the United Nations *Treaty Series*. The resource requirements for the Section for the biennium 2008-2009 reflect a decrease of \$770,300. In view of the rationalized workload, it is proposed to redeploy a P-4 post from the Treaty Section for an Administrative Officer in the Executive Office and to redeploy a P-3 post from the Executive Office to the Treaty Section for an Information Technology Officer to support its desktop and web publishing activities and assist in data analysis and programming. It is also proposed to redeploy the post of Editorial and Desktop Publishing Assistant (General Service (Principal level)) to the Codification Division to assist in the electronic dissemination of the *Reports of International Arbitral Awards*. In addition, a General Service (Other level) post will be redeployed to the Office of the Under-Secretary-General for a Legal Assistant. The decrease in non-post resources reflects the reduction in printing and data-processing services costs and the outcome of the upgrading of work methods over successive bienniums within the Section.

- 8.14 The overall resources required for the biennium 2008-2009 for the Treaty Section amount to \$42,227,800, before recosting, reflecting an increase of \$74,800 in resources (or 0.2 per cent). The overall level of resources, as indicated in table 8.3 below, reflects, inter alia, the delayed impact of one new post (P-2) established in the biennium 2006-2007 in the General Legal Division; the proposed new P-5 post of Special Assistant to the Under-Secretary-General, redeployments between subprogrammes for the establishment of the Office of the Under-Secretary-General; and decreases in non-post requirements, as described above.
- 8.15 It should be recalled that in his note to the General Assembly (A/61/758), the Secretary-General submitted his comments on the recommendations contained in the report of the Redesign Panel on the United Nations system of administration of justice (A/61/205) and identified the time and resources needed to implement the Panel's recommendations. The proposed resource redeployments and growth sought in the aforementioned note by the Secretary-General have not been incorporated under the present budget section. In its resolution 61/261, the Assembly decided to establish a new, independent, transparent, professionalized, adequately resourced and decentralized system of administration of justice, requested the Secretary-General to submit a report on resources required for the implementation of that resolution as a matter of priority at the second part of its resumed sixty-first session and to report on issues identified in the resolution regarding the establishment of the new system of administration of justice no later than the early part of the main part of its sixty-second session. Following consideration, the decisions of the Assembly on these reports and the related resource proposals would be incorporated in the budget appropriation at the time of adoption of the programme budget for the biennium 2008-2009 in December 2007.
- 8.16 The amount of extrabudgetary resources, estimated at \$11,894,500, will be utilized for activities related to, inter alia, support for United Nations organizations, peacekeeping operations, symposiums on international trade law and assistance in the teaching, study, dissemination and wider appreciation of international law.
- 8.17 Pursuant to General Assembly resolution 58/269, resources identified for the conduct of monitoring and evaluation would amount to \$1,096,400, of which \$918,100 are from the regular budget and \$178,300 are extrabudgetary.
- 8.18 The estimated percentage distribution of the resources of the programme in the biennium 2008-2009 is shown in table 8.2 and the distribution of resources is summarized in tables 8.3 and 8.4.

A. Policymaking organs

1. International Law Commission

Resource requirements (before recosting): \$1,938,200

- 8.19 The International Law Commission was established by the General Assembly in its resolution 174 (II). The Commission has as its objective the promotion of the progressive development of international law and its codification. It consists of 34 members who are persons of recognized competence in international law. Unless otherwise decided by the Assembly, the Commission meets annually for one 12-week session in Geneva and reports to the Assembly, which provides guidance to the Commission on its programme of work. The Codification Division of the Office of Legal Affairs provides substantive servicing for the Commission.

Table 8.5 **Resource requirements**

| Non-post | 1 938.2 | 1 938.2 | — | — |
| Total | 1 938.2 | 1 938.2 | — | — |

- 8.20 The amount of \$1,938,200 covers the costs of: (a) attendance by the Chairman and 33 members at the annual session in Geneva; (b) attendance by the Chairman at the regular sessions of the General Assembly during consideration of the Commission's reports; and (c) attendance by the Chairman or another representative of the Commission at the sessions of the four regional legal intergovernmental bodies (two weeks each) with which the Commission, pursuant to its statute, has established links of cooperation.

2. United Nations Commission on International Trade Law

Resource requirements (before recosting): \$486,500

- 8.21 UNCITRAL, comprising 60 Member States, is charged by General Assembly resolution 2205 (XXI) with the improvement and harmonization of international trade law, which corresponds to subprogramme 5. The Commission carries out its tasks, with the assistance of the International Trade Law Division as its secretariat, in one annual meeting of up to four weeks' duration and in six working group meetings on specialized topics of up to a total of 12 weeks' duration per year.

| Total | 486.5 | 486.5 | — | — |

- 8.22 The amount of \$486,500 would provide for the travel of representatives, travel of staff and contractual services.

B. Executive direction and management

Resource requirements (before recosting): \$1,462,600

- 8.23 The Under-Secretary-General for Legal Affairs, the Legal Counsel, is responsible for the overall policy direction, supervision, administration and management of the Office of Legal Affairs. He represents the Secretary-General at meetings and conferences of a legal nature and in judicial and arbitral proceedings; certifies legal instruments issued on behalf of the United Nations; convenes meetings of the legal advisers of the United Nations system and represents the United Nations at such meetings. In the exercise of his responsibilities, the Legal Counsel is assisted by the Assistant Secretary-General for Legal Affairs, who serves as Deputy to the Under-Secretary-General. The Office of the Under-Secretary-General for Legal Affairs will assist the Legal Counsel in the exercise of his responsibilities.
- 8.24 The Legal Counsel has, over the years, reassigned resources from ongoing mandated responsibilities in seeking professional assistance with the executive direction and management of the Office of Legal Affairs. The work of the Office has increased sharply in recent years, with the growing number of international criminal tribunals and the broad expansion of peacekeeping-related legal requests resulting from the increase in the number and size of peacekeeping operations. The capacity of the Office's units to provide resources to support the Legal Counsel has also diminished since the management requirements of the Office have grown in complexity. In addition, the participation of the Legal Counsel on the Policy Committee and the Management Committee, newly created during the previous biennium, as well as participation in meetings of the Executive Committees, requires the focus of staff reporting directly to the Legal Counsel to assist him with the preparation of necessary papers and early engagement with other departments whenever the decisions of those bodies have a legal dimension.

- 8.25 It is therefore proposed to establish an Office of the Under-Secretary-General to assist the Under-Secretary-General for Legal Affairs, the Legal Counsel, in the executive direction and management of the Office of Legal Affairs.

Table 8.7 **Objectives for the biennium, expected accomplishments, indicators of achievement and performance measures**

8.26 The amount of \$1,462,600 reflects the requirements for the establishment of the Office of the Under-Secretary-General. The Office will be established by redeploying the post of Under-Secretary-General and the Personal Assistant (General Service (Other level)) from the Office of the Legal Counsel, a P-3 post from the Executive Office for a Legal Officer and a General Service (Other level) post from the Treaty Section for a Legal Assistant. It is also proposed to establish a new post (P-5) as Special Assistant to the Legal Counsel to assist him in the management of the Office. The non-post items (\$123,800) relate to other staff costs, travel of staff, general operating expenses, hospitality and furniture and equipment, necessary for the operation of the Office.

It also provides technical assistance to Governments and international organizations using UNCITRAL texts in their legislative work.

Estimate 2006-2007: 350 participants trained

Target 2008-2009: 400 participants trained

External factors

8.48 The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that:

- (a) Member States request legal and technical assistance before concluding treaties, in particular with reference to final clauses of treaties, and before submitting treaties for registration, thus avoiding delays and potential problems;
- (b) Member States increasingly provide materials in electronic format to facilitate registration and publication and provide courtesy translation for treaties submitted in languages other than the official languages of the United Nations.

Outputs

8.49 During the biennium 2008-2009, the following final outputs will be delivered:

- (a) Other substantive activities (regular budget):
 - (i) Recurrent publications: bilingual issues (English/French) of the monthly *Statement of Treaties and International Agreements Registered or Filed and Recorded with the Secretariat* (ST/LEG/SER.A...); *Multilateral Treaties Deposited with the Secretary-General*, status as at 31 December 2007 (ST/LEG/SER.E/26) and status as at 31 December 2008 (ST/LEG/SER.E/27); preparation of two internally compiled and typeset volumes of the United Nations *Treaty Series Cumulative Index* in conjunction with the United Nations *Treaty Series*; publication of the United Nations *Treaty Series*; *Treaty Event Annual Focus Book*;

- 8.50 The amount of \$6,504,700, reflecting a decrease of \$770,300, provides resources for 27 posts and various non-post items. The decrease in post resources (\$384,400) is attributable to (a) the redeployment of a P-4 post from the Treaty Section for an Administrative Officer in the Executive Office to augment the administrative capacity of the Office; (b) the redeployment of an Editorial and Desktop Publishing Assistant (General Service (Principal level)) from the Treaty Section to the Codification Division to assist in the electronic dissemination of the Reports of International Arbitral Awards; and (c) the redeployment of a General Service staff member (Other level) as a Staff Assistant to the proposed Office of the Under-Secretary-General, partially offset by an inward redeployment of a P-3 post from the Executive Office to the Treaty Section as an Information Technology Officer to support its desktop and web publishing activities and assist in data analysis and programming. The Treaty Section is currently upgrading its database system with a view to enhancing desktop publishing capabilities for all of the Section's publications (*United Nations Treaty Series*, *Cumulative Index*, *monthly Statement of Treaties*, *Multilateral Treaties Deposited with the Secretary-General* and other publications) as well as enhancing reporting capabilities on treaty data for the clients of the Treaty Section. As the database has become much more sophisticated and complex, a P-3 Information Technology Officer is vital for the proper maintenance and support of the system. Owing to the continued improvement in working methods, the outward redeployment of posts described above would not have any major impact on the Treaty Section. The decrease in non-post resources of \$385,900 is attributable mainly to the continued reduction of the printing backlog in the Treaty Section.

D. Programme support

Resource requirements (before recosting): \$2,003,500

- 8.51 The Executive Office provides services to the Office of Legal Affairs in connection with personnel, budgetary and financial administration, resource planning and use of common services, together with administrative support for policymaking organs and other international meetings, as required.

Table 8.23 Resource requirements: Programme support

8.52 The amount of \$2,003,500, reflecting a decrease of \$51,900, provides resources for six posts and various non-post items. The decrease in post resources (\$208,700) is attributable to (a) the redeployment of a P-3 post from the Executive Office to the Treaty Section as an Information Technology Officer to support its desktop and web publishing activities; (b) the redeployment of a P-3 post to the proposed Office of the Under-Secretary-General for a Legal Officer to support the newly established Office; and (c) the inward redeployment of a P-4 post from the Treaty Section for an Administrative Officer in the Executive Office to augment the administrative capacity of the Office of Legal Affairs, particularly in the area of human resources management. The proposed redeployments are the result of the continuous rationalization of the work processes in the Office of Legal Affairs, with a view to ensuring the optimum utilization of resources. It is offset by increases in non-post requirements for contractual services and general operating expenses attributable mainly to the increase in communication costs resulting from videoconferencing and mobile communications and the increase in the provisions for the departmental share of Information Technology Services Division-provided data-processing infrastructure support and services costs to support the information technology infrastructure and desktop connectivity.
